

QUICK, EASY & AFFORDABLE LIVE TV PRODUCTION

Easy to use all-in one live multi-camera production system that can be controlled by just one person. For organizations that want to create broadcast quality content in a cost-effective way.

WHAT IS VIDIGO LIVE?

ALL-IN-ONE SOFTWARE SOLUTION

Traditional workflows, loads of machines, and the technical crew make room for VidiGo Live: VidiGo's very intuitive software solution for live multi-camera TV production. It includes a video switcher, audio mixer, audio and video players and a graphics engine that supports real-time Adobe Flash graphics.

Because the system is easy to learn, it does not require technical knowledge or previous video production experience to operate VidiGo Live.

VidiGo Live easily fits into a single flight case. It only requires the cameras and external audio sources to be connected and within just few minutes you are ready to go on air.

VIDIGO LIVE IN A NUTSHELL

- Software based live TV production
- Runs on standard hardware
- Easy to learn and simple to use
- One-man operation with powerful macros
- SDI video switcher and audio mixer
- Players for audio, video and still-images
- Adobe Flash based graphics
- Real-time DVE and chromakeying

WHY VIDIGO LIVE?

FEATURE RICH

We believe everybody deserves to make broadcast quality content as professional as major broadcasters and giant multinationals. But much cheaper, less time consuming and far easier. No big teams needed to coordinate the production. No system integration issues. Instead, rapid set-up times, single operator control and the flexibility to try new live broadcast concepts at an affordable cost, even for smaller businesses.

ONE-PERSON OPERATION

With its easy look and feel, touch-screen control and smart automation features, VidiGo Live can be controlled by just one person.

VidiGo Live can be serviced by your IT department. It works with industry standard file formats and features SDI inputs and outputs to easily integrate into new or existing television studios.

PROVEN SOLUTION

VidiGo Live is an affordable solution that has already proven its value in the market. VidiGo Live is used in television broadcast, for corporate video and at radio stations.

FEATURES

ALL-IN-ONE SOLUTION

SDI inputs and outputs, switching between multiple sources, built-in video players and still-store, graphics, audio players, audio mixer, chroma-keying and digital video effects.

SINGLE OPERATOR CONTROL

VidiGo Live enables a single non-technical operator to manage a live broadcast production using touch-screen and hardware control panels. The easy intuitive user interface requires little training.

MACROS

Pre-recorded macros automate parts of the operation. You can save a complete program format for easy recall at a later time.

REMOTE CAMERA CONTROL

VISCA support with presets allows you to control remote cameras in real time and to quickly store and recall frequently used camera angles.

AUTO-DIRECTOR

The optional auto-director will activate macros and switch between sources fully automatically based on external triggers and audio levels.

VIDIGO LIVE IN USE

LIVE TELEVISION PRODUCTION

Small multi-camera productions can be prepared and produced with minimal technical staff, saving on production costs and creating new opportunities for a daily or weekly show format.

VISUAL RADIO

No operators are needed to engage your audience by adding video to your radio broadcast. Combining radio with live images from the DJs and guests in the studio creates a richer experience for listeners. Add graphics to display twitter feeds, sms messages, news and song information with this fully automated solution.

MOBILE TV PRODUCTION

VidiGo Live in a flight-case takes only minutes to set-up with video, clip-store, audio and graphics all integrated in this compact one-man operated system.

CORPORATE PRESENTATIONS

An essential tool for non-technical staff to cost-effectively communicate professionally branded live and recorded communication to external stakeholders.

WHY VIDIGO?

**...because content creators enjoy working with it,
CTOs believe in the technology,
the grumpy CFO loves its value
and the CEO can say it was his idea!**

VIDIGO'S MISSION

EMPOWERING CREATIVITY

To serve the next generation of content creators with easy to use tools for the production of video content.

ENABLING NEW BUSINESS MODELS

With production costs under pressure, dedicated equipment operated by technical engineers shall be replaced by intuitive software that puts the creative professionals in control. VidiGo is devoted to the development of those tools that enable anyone, anywhere to produce quality video content for all platforms.
