

DUTCH ARMY KNIFE FOR BROADCAST PROFESSIONALS

Real-time desktop grabber with video player and still store. The easiest solution to bring PC and web content to SDI.

WHAT IS VIDIGO TOOLBOX?

EASY-TO-USE GRABBER WITH SDI OUTPUT

VidiGo Toolbox is the answer to the increasing need to display PC or Web content in a live TV production.

In one click you can select and grab PC and web content – from YouTube and Skype to PowerPoint and Google Earth – containing still or motion graphics. You can take these to air with fill and key. And with the very intuitive user interface, repositioning, resizing, zooming in and out have never been so easy. Of course you can adjust the audio for exact lip-sync.

VIDEO FILE PLAYER

The easiest way to bring a video file to SDI with the video file player built-in to VidiGo Toolbox. Select any file on your computer to play out directly to SDI. Automatically scales up or down depending on the SDI output settings.

STILL STORE

The still store allows you to move, scale and mask photos to SDI output. All preparations and image settings can be stored in a playlist.

WHY VIDIGO TOOLBOX?

ONE CLICK!

VidiGo Toolbox is the Dutch army knife that a modern TV professional cannot live without. Actually, it is the most reliable and easy-to-use software product in its category.

In just one click this smart solution takes your PC or Web content to live TV broadcasts.

VidiGo Toolbox is a Windows based application that integrates easily into your existing live or post-production workflow.

VIDIGO TOOLBOX IN A NUTSHELL

- Live desktop grabber
- Video file player
- Image still-store
- SDI output (SD/HD)
- Audio synchronization

*Ideal when using YouTube or Skype
in a broadcast production.*

FEATURES

DESKTOP GRABBER

Real-time output to SDI of the computer's desktop or a region selected on the desktop. Features automatic window detection and free selection of regions as well as live switching between multiple regions.

VIDEO PLAYER

Playback of video files directly to SDI.

STILL STORE

The easiest tool to select, manipulate, schedule and play-out still images and photos to SDI.

ZOOMING AND POSITIONING

With the very intuitive user interface, repositioning, scaling and zooming has never been so easy.

AUDIO SYNCHRONIZATION

Adjustable audio delay for exact lip-synchronization on the embedded SDI audio output.

SDI KEY AND FILL OUTPUT

Industry standard SD and HD outputs from the supplied SDI interface create a key and fill signal.

VIDIGO TOOLBOX IN USE

BRING YOUTUBE TO BROADCAST

Looking to share the latest hit on YouTube with your audience? With one click any video playing on your desktop is available on SDI, and with the adjustable audio delay, fixing lip-synchronization is easy.

SKYPE

Use Skype to interview reporters live on TV. All your reporters need is a laptop, webcam and Skype software.

GOOGLE EARTH

You're one click away from displaying high-resolution aerial and satellite imagery from Google Earth. Search, mark and save your point of interest and the map can be included as animated graphic element in your show.

STILL STORE

Organize images in a playlist and when you are ready to go live, with one mouse click you switch a logo, chart, photo or background on-air.

VIDEO PLAYER

Just one minute before going live, a reporter comes in with a digital video file that must be broadcast. With VidiGo Toolbox it is simply a case of opening any file on the PC and hitting the play button.

WHY VIDIGO?

**...because content creators enjoy working with it,
CTOs believe in the technology,
the grumpy CFO loves its value
and the CEO can say it was his idea!**

VIDIGO'S MISSION

EMPOWERING CREATIVITY

To serve the next generation of content creators with easy to use tools for the production of video content.

ENABLING NEW BUSINESS MODELS

With production costs under pressure, dedicated equipment operated by technical engineers shall be replaced by intuitive software that puts the creative professionals in control. VidiGo is devoted to the development of those tools that enable anyone, anywhere to produce quality video content for all platforms.
